

# Text Message Marketing: Make Ineffective Advertising Obsolete

*Increase sales, customer frequency and customer loyalty while slashing your advertising budget.*

- Does nothing you try with marketing seem to bring in the sales you need?
- Are your sales trending the wrong way during this economy?
- Are you losing customers to bigger competition and national brands?

*If you answered yes to any of these questions then Moto Message may  
be able to help...*

- **“The Money is in the List.”** Build a list of customers who love your business, already have spent money at your business, want to spend more money at your business and want to receive special offers from you.
- Don't throw your money away chasing people who may never visit you.
- No other marketing medium can compete with the cost, ROI, read rates or redemption rates of a Moto Message marketing campaign.
- Having a slow day? Instead of sending your employees home early, send a text message blast with a special offer good for that day only and sales will be coming through your door in under an hour.
- Bring a new campaign or marketing idea to your customers instantly, not weeks like direct mail, newspaper, radio or television.
- Takes minutes to set up. Nothing to buy, install and never any contracts or commitments to sign. Just log-in to our website, type out your special offer, hit send and your customers have your offer on their mobile phone in minutes.
- Our *30 Day Action Guide and User Manual* walks you through every step of increasing your sales with text message marketing.
- Social Media: Free eBooks and Marketing reports in the members area to help your business crush the competition. Facebook, FourSquare, Twitter, LinkedIn, Google Maps/Search, Yelp, Groupon and other guerilla marketing reports.
- 24/7 marketing and tech support. We are here to support you 100% in any way possible.
- NO contracts, NO hidden fees, cancel any time with push of a button and get a full refund of unused credits.
